

# SUCCESS STORY

An Australian startup partners with Cafeto Software to constantly monitor the health status of patients with chronic pain.

**Cafeto** | Your Technology Partner  
to Deliver on Your Success

This initiative provides a support platform for the Australian government and insurers. It enables the required follow-up of people suffering from chronic pain.

The platform carries forms that make it possible to qualify the approximate to what the patient's condition is.

# Needs

- Integrate all services in a mobile application.
- Qualify people's health status through the app and generate a relevant qualification that supports the health insurers.

# Challenges

- Provide proper maintenance of the platform.
- Work with an educational model to qualify users on the platform.
- Make continuous improvements to the platform.

# Our Work

- **Mobile App.**
- **Website.**
- **User qualifying and tracking.**

# Process

**First phase** → Plan, design, and develop, in a comprehensive platform, an educational model of software solutions where users will be qualified, integrating different services required for validation.

**Continuous Improvement**  
→ Integrated services update.

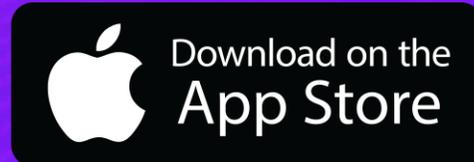

# Tech Stack

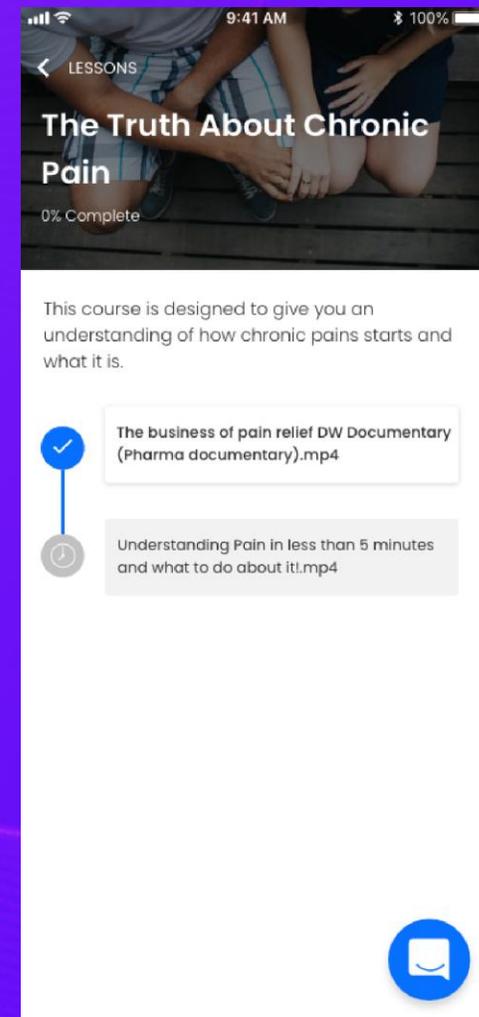

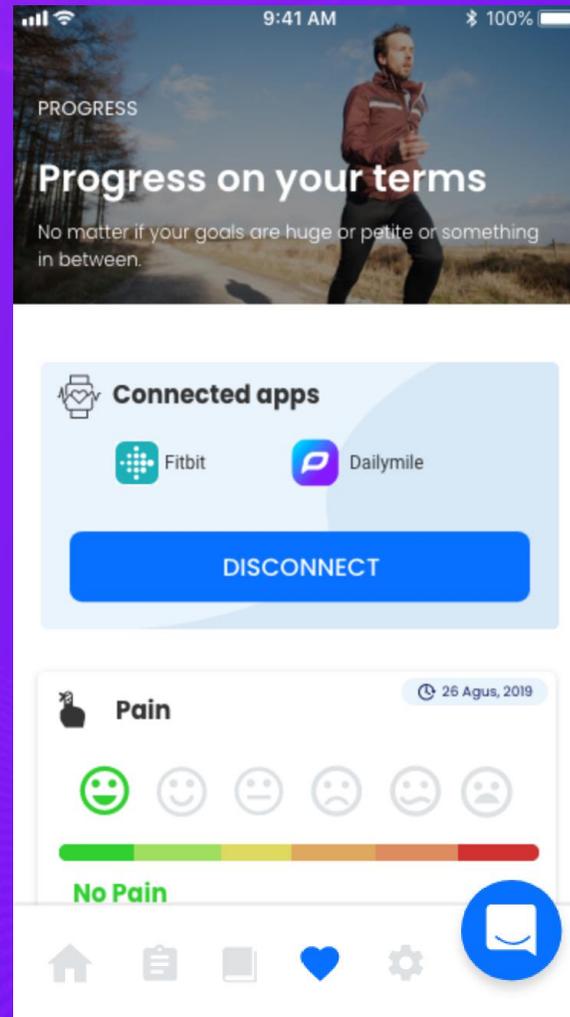

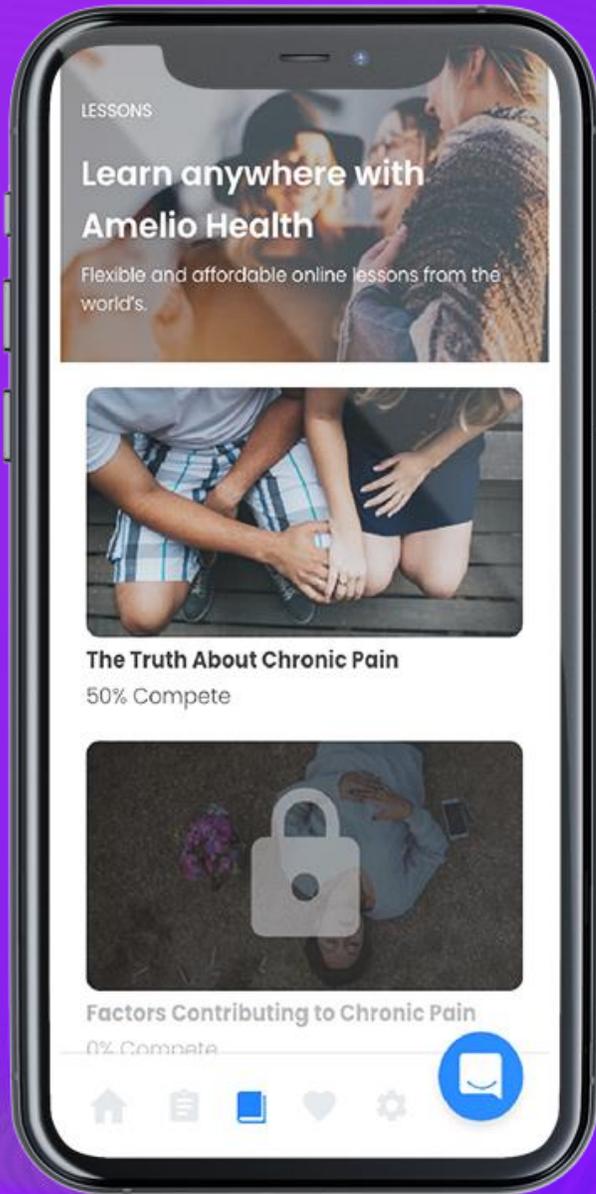

# Outcomes

- Cohesive platform development (app, website).
- We met the expectations of the client's innovation goals.
- The client won awards at health and technology events.
- Materializing the entire ideation presented by entrepreneurship.

## App Distribution:

I had an idea. A really big idea, that would reduce the suffering of people with chronic pain. My biggest struggle was to find someone I could trust to help me make my idea a reality. The startup world is a very scary environment, with many vultures ready and willing to take advantage of inexperienced entrepreneurs.

First, I needed someone who had the expertise and experience as a developer, and then I needed someone who could understand what I was trying to achieve, to be able to make it into a reality, while not being priced out of my reach.

The quality of workmanship, and constant attention to my needs, was delivered in a seamless and swift way. Every sprint was agreed beforehand, documented in writing, and delivered on time and on budget.

The systems put in place to manage the project were essential when it came to documenting a request for research and development tax grants and for applications of other grants.

I now go straight to Cafeto whenever I need something done or upgraded, because I know I will always get quality and fairness.

I am grateful for everything we have been able to achieve. You have taken my big idea into a global entity in just 18 months. Amazing!!!

The background features a gradient from dark blue on the left to bright purple on the right. Overlaid on this are several wavy, ribbon-like shapes in shades of purple and blue. A faint grid pattern is visible, particularly in the lower right quadrant, where it appears to be a perspective view of a grid receding into the distance.
